Welcome

We are looking forward to an exciting conference in July with German family researchers coming together from many countries. This is a global conference organized by a global partnership. The International German Genealogy Partnership — originally the German-American Genealogical Partnership — has organized a conference offering researchers new dimensions in learning from our stellar lineup of speakers, making connections, offering research assistance and sharing information.

An all-star lineup of speakers awaits you, including well-known international people such as Roger Minert, Ernest Thode, Dirk Weissleder of Germany, Baerbel Johnson, Fritz Juengling, Michael Lacopo, James Beidler, Paula Stuart-Warren, Teresa Steinkamp McMillin, Jill Morelli, Stephen Morse and other international speakers from Germany and Australia.

The conference — “CONNECTIONS: International. Cultural. Personal.” — offers 70 presentations over three full days. It also offers a unique opportunity for German genealogists like you to make personal connections with other attendees. This is the Partnership’s first-ever conference. Come make history with us and attend one of the largest German genealogy events ever held in the United States.

Executive Committee, International German Genealogy Partnership

Minnesota’s strong German heritage is the setting for the 2017 International Germanic Genealogy Conference.

Two million people living in Minnesota — nearly 40 percent of its population — are descendants of immigrants from German-speaking countries. In fact, about 40 percent of the population of the five-state region (Wisconsin, Iowa, Minnesota, North and South Dakota) is of German ancestry. German surnames abound and more people than ever are researching their ancestral ties back to the homeland.
